

Origin of filters produced and distributed by UFI FILTERS spa in accordance with EC regulation 1400/2002

Dear Customer,

With reference to the standards set by the introduction of the new EC regulation 1400/2002, we believe it necessary to clarify the position of UFI FILTERS spa.

UFI FILTERS spa has been working for over 3 decades in the field of filtration, and is specialised in the production and sales of quality filters for the automotive, industrial and agricultural industries.

The filters produced by UFI FILTERS spa, and sold on the Independent Aftermarket under the UFI and SOFIMA brands, are made using the same methods, raw materials and Know-How used for the production of those filters destined for the Original Equipment Market.

Furthermore, UFI FILTERS spa certifies that the filters destined for the Independent Aftermarket conform to the standards required by art. 1, letters t) or u) of the (OE) regulation 1400/2002.

The UFI and SOFIMA branded filters are to be considered as Original Equipment quality, or of a quality corresponding to that of the OE filter.

This means that UFI and SOFIMA products can be used for the maintenance of a vehicle during its warranty period, without altering with the validity of said warranty, as foreseen by art. 4 letter k) of the fore-mentioned regulation.

Certain of having clarified our position of the above, please accept our

Best regards,

UFI FILTERS spa
